Summary

Being integrated means being able to accept all aspects of one's self. An integrated man is able to embrace everything that makes him unique: his power, his assertiveness, his courage, and his passion as well as his imperfections, his mistakes, and his dark side.

"Your time is limited, so don't waste it living someone else's life. Don't be trapped by dogma - which is living with the results of other people's thinking. Don't let the noise of other's opinions drown out your own inner voice. And most important, have the courage to follow your heart and intuition. They somehow already know what you truly want to become. Everything else is secondary." ~ Steve Jobs

"Things turn out best for the people who make the best of the way things turn out."
