4. . From July, 2009 till February, 2013, I was working as anaesthesia consultant at Dar elfouad hospital highly specialized in adult and paediatric cardiac surgery kidney and liver transplantation hospital Cairo, Egypt.

5. From May, 2002 till august 2009 I was working as a specialist of anaesthesia, & surgical I.C.U. Also, as a staff anaesthesiologist in the following private hospitals: Dar Al Fouad Hospital, Giza, Egypt and misr international Hospital, Cairo, Egypt.
6. From October, 2010 till April, 2012 I was working as senior registrar at Dar Al Fouad Hospital (private hospital at Giza, Cairo for cardiothoracic and liver transplantation surgeries.
7. Resident in Anaesthesia, ICU and Pain management Department, police force agouza hospital ministry of interior military Hospital (1200 beds and 25 operating rooms), Cairo, EGYPT. From 23-4-1995 to 17-10-2002. I attended the residency training program which includes:

- First year residency training in:

- . Anaesthesia for general surgery (6 months)
- . Anaesthesia for ophthalmic surgery (3 months)
- . Anaesthesia for ENT surgery (3 months)

During this period I attended lectures about Anatomy (anatomy of airway & spinal cord) Physiology (physiology of CVS, CNS, respiratory system & endocrine system) At the end of this period I passed master degree 1<sup>st</sup> part exam which include oral & written exam in anatomy physiology & clinical medicine in relation to Anaesthesia & practical exam in clinical medicine.

- Second year residency training in:

- . Anaesthesia for obstetric surgery (6 months)
- . Anaesthesia for orthopedic surgery (3 months)
- . Anaesthesia for pediatric surgery (3 months)

During this period I attended lectures in physics & pharmacology topics related to Anaesthesia

- Third year residency training in:

- Anaesthesia for neurosurgery (3 months)
- Cardiothoracic Anaesthesia (3 months)
- ICU (6 months)

At the end of this period I passed master degree 2<sup>nd</sup> part exam which included written and oral exams in Anesthesia, physics and pharmacology in addition to clinical exam in Anesthesia practice.

14. House Officer (Intern) in Cairo University Hospitals, Cairo, Egypt. From 1/12/1995 till 30/11/1996 where I received two months speciality training in the following clinical departments:

Internal Medicine, General Surgery, Internal medicine, Obstetrics & Gynaecology, Pediatrics, Anesthesiology and Emergency Medicine.

Responsibilities included assisting residents in patient management organizational tasks and training on manual skills such as IV cannulation, nasogastric intubation, endotracheal intubation arterial and venous blood sampling, urinary catheterization, lumbar puncture, wound suturing, dressing and wound care.

## Experiences Gained During Previous Posts:

1. I have gained a good experience during my 18 year carrier in anaesthesia, in the following anaesthesia specialties: General surgery, Orthopaedic surgery, Ear, Nose and Throat surgery, Paediatric surgery, vascular surgery, Plastic surgery, Gynaecologic and Obstetric surgery, Urologic surgery, ophthalmic surgery and Neurosurgery. Also I have gained experience in many types and techniques of difficult intubation cases using fiber optic intubation, retromolar bonfills and glidoscope plus regional anaesthesia including (Spinal, Epidural anaesthesia and different nerve blocks e.g. Brachial plexus block, wrist and ankle block, local anaesthesia for the eye, stellate ganglion block & celiac plexus block).
2. I have gained a good experience in cardiothoracic anaesthesia as I have been working as a specialist for eight years in cardiothoracic department at cardiac police force heart center military Hospital, Cairo, Egypt and as a cardiac anaesthetist since September 2009 till February 2012, at Dar Al-Fouad Hospital, 6<sup>th</sup> Of October city, Egypt for cardiothoracic and liver transplantation surgeries where I have got experience in anesthetizing patient with congenital, ischemic or valvular heart disease for open heart surgery e.g. CABG (on pump and off pump techniques), AVR, MVR, ASD, VSD, TOF, PDA and thoracic aortic aneurysm (with or without total circulatory arrest). Also I have got experience in anesthetizing emergency cardiac surgery e.g. cardiac tamponade, valve thrombosis...etc. This including experiences in arterial cannulations, central venous cannulations (using different approaches), Swan Ganz catheter insertion for measurements of cardiac output, dealing with different types of pacemakers and intra-aortic balloon pump. Also I have got a good experience for organ transplantation (liver and kidney) as I joined the team for transplantation at the time I was working at Dar Al-Fouad Hospital.
3. I also have a good experience in Intensive Care Medicine including diagnosis and management of cases with polytrauma, multiple organ failure, comatose patients, and burnt patients. This included skill in C.P.R., central venous cannulation, arterial cannulation, difficult intubation and mechanical ventilation.

## Memberships:

- Member of the Kuwait Medical Association.
- Member of the Egyptian Medical Syndicate.
- Member of the Egyptian Society of Anaesthesia.
- Member of Egyptian society of cardiothoracic anaesthesia (ECTAS)
- Member of the Pan-Arab Society of Trauma & Emergency Medicine.
- Member of the Egyptian Society of Pain Management.
- Member of the Egyptian Society of Intensive Care.

## Courses Attended:

- Advanced cardiac life support (ACLS) course renewal, 2013.
- Communication for medical professionals course, November 2011 (Kuwait).
- The James Cook Regional Anesthesia Course in collaboration with Dar Al Fouad Hospital, Egypt and Durham University, UK 2010.
- Fellow ship in adult and paediatric cardiac anaesthesia policlinico san donato university of Milano italy 2009 – 2010

- Fellow ship in adult and paediatric transoesophageal echocardiography  
policlinico san donato university of Milano italy 2009 – 2010 .

**Published scientific researches:**

- The effect of two intrathecal administration of NMDA receptor antagonist (magnesium sulphate and ketamine )on the efficacy and duration of ropivacaine and fentanyl analgesia in lower abdominal surgeries and their

effect on neurotrophic factors (nerve growth factor and brain derived neurotrophic factor)thesis submitted for partial fulfillment of md degree of anaesthesia and surgical icu 2006 faculty of medicine cairo university .

- Heat and moisture exchangers and breathing filters in anaesthesia . Thesis submitted for partial fulfillment of M.sc. degree in anesthesia, Faculty of medicine, cairo University, 2002.
