Hospital & Health Care Professional
Slough, United Kingdom

Experience

Shifa International Hospitals Limited
Registrar emergency medicine
May 2012 - July 2013 (1 year 3 months)
A &E

Having worked previously in this hospital in all medical departments its my privilege to work there as a senior medical officer/ registrar. With the consultants training on board learned alot in patients mangement and counselling. Participated in an internal audit. Attended training sessions by colleagues and managed to give some. Supervised junior fellows in carrying out procedures and other work. From triage till final decision every day there was something new to learn and something to tell others. Loved being a part of their team.

gurayat general hospital gurayat KSA
ICU Resident
2011 - 2012 (2 years)

Had a chance to work in a tertiary care unit in the north of kingdom of saudi arabia and improve my knowledge and skills. It was a 20 bedded ICU with both medical and surgical emergencies with a potential to expand the number of beds depending on the requirement. Managing patients airway, hemodynamics, carrying out all possible diagnostic and therapeutic measures to assist in patient management and improve the quality of life. Helped in patient transportation for medivac services. Carried out academic sessions with other colleagues and staff.

Shifa International Hospitals Limited
Resident Medical Officer
January 2007 - January 2011 (4 years 1 month)
critical care and emergency medicine

Worked in pulmonology, cardiology, neurology, gastroentrology, nephrology, infectious diseases, hematology, high dependancy and critical care unit including coronary care unit in a 500 beded tertiary care state of the art hospital which is quite updated with recent medical advances. Had been given a privilege to work as a team leader in the unit and on calls. Managing

patients, coordinating with the consultants, employing all life saving measures and proper and adequate counselling was a part of our work.

rawalpindi general hospital rawalpindi

House Officer

May 2005 - April 2006 (1 year)

obs n gynae, general medicine

Did training as a house surgeon in obs n gynae for six months and medicine for six months. During this training got my hands over SVD, twin delivery, forceps delivery, monitoring of patients both antenatal and postnatally. Also worked for gynaecological problems and all gynaecological procedures both diagnostic and therapeutic . I have the honour of working in the twin cities biggest and busiest hospital with daily oncalls. Had a proper supervised training with a consultant in wards, clinics and in ED. During medicine housejob i rotated through pathology, dematology, ED, wards, clinics, high dependancy unit as a part of my training . Working with very energetic and hard working team inculcated in me, the desire to work for the betterment of the patient and to be a safe doctor for them.
